

Intro:

You have no reason to believe what (our guest \*OR\*your next speaker) is going to say. In fact, throughout the next 45 minutes you will realize that many of the things you thought were real are illusions and what is truly real, is something magical you're about to discover for yourself. Anders Hansen is a master of deception with 2 decades of experience as an international illusionist. He has appeared on national TV in Europe, North and South America and headlined on cruise ships around the world. He even predicted the 7 national lottery numbers on live TV, and made a whopping \$10 on it!

Enthusiastically endorsed and coached by Bob Proctor, Anders made a change in career and now bridges the art of illusion with personal development as he wants you to experience "The Magic of Achieving the Impossible" for yourself. His goal is to shine light on the master magician that you, yourself have become. However, instead of fooling others, his claim is that you are deceiving yourself. What's real then? You're about to find out! One advice though, don't blink... Either with your eyes or your mind. Please welcome, Anders Hansen.

Gennem den næste times tid vil du opleve at mange af de ting du troede var virkelighed ikke er andet end illusioner, og det der rent faktisk er virkelighed er noget meget magisk du kommer til at opdage i dig selv.

Anders Hansen er en mester i illusioner og har optrådt på TV i Nord og Sydamerika og krydstogtskibe over hele verden. Efter et dramatisk karriere skift inspireret af hans ven og mentor Bob Proctor, blander han nu illusioner med personlig udvikling og hans mål er at få dig til at opleve den magi der er i at opnå det umulige for dig selv.

Hans mål er at fremhæve den illusionist du selv er blevet, men istedet for at snyde andre mener han at du snyder dig selv allermost. Hvad er så virkeligt? Det finder du snart ud af, hvis du holder dine øjne og dit sind åbent...

Lad os byde velkommen til Anders Hansen
